

NETWORK SECURITY ADMINISTRATOR

Salary range 2500 – 4000 EUR gross

Your functions:

- Implementing, operating and maintaining modern network security environments in hybrid public and private cloud infrastructures
- Additional to public cloud infrastructures like MS Azure, you will work with technologies such as Citrix Netscaler, Cisco's Nexus switches, firewalls from Fortinet and virtualized networks based on VMWare's NSX and SD-WAN products.
- Steering of 3rd party network service providers

What we are looking for:

- Completed IT professional training and experience in Network and Firewall technologies and OSI layers 1-4
- Good knowledge of network and application protocols
- Joy analyzing complex issues and solution orientation
- Experience with public cloud services like MS Azure or with application delivery controllers like Citrix Netscaler is a plus
- Service orientation, ability to work in a team, take over responsibility and enthusiasm about new technologies

We offer:

- Remote work possibility, flexible working hours and 22 days of paid vacation
- Opportunity to work remotely from abroad for up to 3 months
- Learning and development programs, including a dedicated learning day each month and certification opportunities
- Monthly bonus for transportation/lunch, and a separate bonus for sports and well-being activities
- Health insurance and reimbursement for eyewear
- Full salary during the first 9 days of sick leave, with the option for 5 Trust days per year
- Additional bonus and holidays for life events like wedding and childbirth
- Service awards with extra holidays to reward loyalty
- Compensation for home workplace furniture and technical equipment
- Mobile phone and subscription coverage
- Team building events and the possibility to travel to Germany for training
- Employee-oriented working culture
