

## DB2 Database Administrator

Salary range 2300 – 3500 EUR gross

### Your functions:

- You will be part of a team administrating a diverse DB2 and Oracle landscape for a growing number of customers
- Daily operations in DB2 and Oracle landscapes on all operating systems (Linux, Windows Server)
- Managing Database Workloads on our own private-cloud and on hyperscaler Services like Microsoft Azure
- Various projects including new installations and release changes
- Accompanying new developments and multi/hybrid cloud operation
- Troubleshooting
- Assistance in on-call support (currently one week every 5 weeks)

### What we are looking for:

- As a Database Administrator, you should have experience in IBM DB2 and Oracle Database administration
- Good knowledge of standard operating systems (Linux, Windows)
- Ideally you should already have some initial experience in Microsoft Azure Services administration
- Good knowledge of ITIL v3
- Good English language skills and an agile mindset will round off your profile

### We offer:

- Inspiring working environment, high volume of interesting projects and possibility to work together with experienced senior team
- Start-up environment, where your voice matters, and your ideas are encouraged
- Highly competitive salary and bonus package, full health insurance
- Cool team building events and possibility to travel to Germany for trainings
- Flexible working hours, home office possibilities and 22 days of paid vacation
- Employee oriented working culture
