

DevOps Engineer

Salary range 3000 - 3800 EUR gross

Your functions

- Expanding tool support and automation of our processes and services.
- Responsibility for fine-tuning and implementing new requirements in the areas of web applications, ITSM tools, data pipelines and many more
- Supporting the further development and optimization of our software architecture using current technologies
- Collaboration in cross-team, usually agile-driven projects (including with Scrum)

What we are looking for

- Professional experience in the field of software development with Python, Javascript, Go or similar
- Experience in customizing ITSM tools like Ivanti Service Manager is an advantage
- Curiosity about current container and cloud technologies such as Kubernetes, AWS and Azure
- Strong communication skills, commitment and a high service orientation

We offer

- Inspiring working environment, high volume of interesting projects and possibility to work together with experienced senior team
- Start-up environment, where your voice matters, and your ideas are encouraged
- Highly competitive salary and bonus package, full health insurance
- Cool team building events and possibility to travel to Germany for trainings
- Flexible working hours, home office possibilities and 22 days of paid vacation
