

## Network Security Administrator

Salary range 2500 – 4000 EUR gross

### Your functions:

- Ensure smooth operations of modern network and security environment on hybrid, public and private cloud infrastructures
- Troubleshooting and analyzing the network
- Implementation of requirements in complex infrastructure regarding e.g. LAN, SD-WAN, Firewalling, Proxying, Load balancing and VPN
- Additional to cloud infrastructures in AWS and Azure, you will work with technologies such as Cisco's Nexus switches, firewalls from Fortinet and virtualized networks based on VMWare's NSX and SD-WAN products

### What we are looking for:

- Professional experience in Network and Firewall technologies and OSI layers 1 – 4
- Good knowledge of network and application protocols
- Good knowledge of dynamic routing over multiple redundant paths and dynamic load distribution as well as a high awareness of network security
- Experience with Azure or AWS or with Citrix's NetScaler is a plus
- The motivation to constantly learn new things

### We offer:

- Inspiring working environment, high volume of interesting projects and possibility to work together with experienced senior team
- Highly competitive salary and bonus package, full health insurance
- Cool team building events and possibility to travel to Germany for trainings
- Flexible working hours, home office possibilities and 22 days of paid vacation
- Employee oriented working culture
